Klamath County Public Health

COVID-19 chronology
April 2020

April 30, 2020

Klamath County reported two new cases, bringing the local total to 39, with 31 recoveries. There were two deaths in Oregon, raising the state's death toll to 103.

Oregon Health Authority also reported 64 new cases, bringing the state total to 2,510. The new cases were in the following counties: Benton (1), Clackamas (8), Coos (5), Deschutes (1), Klamath (1), Linn (4), Malheur (1), Marion (17), Multnomah (11), Umatilla (5), Washington (10).

Oregon's 102nd death was a 69-year-old man in Multnomah County, who tested positive April 7 and died April 26 at Legacy Emanuel Hospital. He had underlying medical conditions.

Oregon's 103rd death was a 77-year-old man in Marion County, who tested positive April 25 and died April 25 at his residence. He had underlying medical conditions.

At 5 p.m. Pacific Time in the United States there were 1,094,464 cases, with 151,818 recoveries and 63,827 deaths. Worldwide there were 3,303,306 cases, with 1,038,440 recoveries and 233,791 deaths.

Headlines in the New York Times included:

- As federal guidelines expire, some states press ahead to reopen, despite health warnings.
- New Jersey is now reporting more new daily deaths than any other state.
- Democrats assail McConnell for calling the Senate back; Trump says he wants to 'pause' on aid for states.
- California will close some beaches before the weekend.
- Nursing homes will face federal inspections and reporting requirements, Trump says.
- Trump officials are said to have pushed spies to hunt for unproven links between the virus and a lab in Wuhan.
- 3.8 million more workers filed for unemployment benefits last week.

April 29, 2020

Two deaths brought Oregon's death toll to 101. Oregon Health Authority also reported 61 new cases, bringing the state total to 2,446. The new cases were in the following counties: Clackamas (1), Hood River (1), Jefferson (4), Linn (1), Marion (18), Multnomah (19), Polk (1), Umatilla (8), Washington (7), Yamhill (1).

Oregon's 100th death was a 75-year-old man in Multnomah County, who tested positive on April 20 and died on April 22 at his residence. He had underlying medical conditions.

Oregon's 101st death was a 71-year-old woman in Multnomah County, who tested positive April 11 and died April 20th at Adventist Hospital. She had underlying medical conditions.

At noon Pacific Time, in the United States there were 1,048,834 cases, with 144,352 recoveries and 60,495 deaths. Worldwide there were 3,188,596 cases, with 986,622 recoveries and 225,615 deaths.

Headlines in the New York Times included:

- Grasping for good news as the death toll mounts, stocks rally on early reports that a drug shows promise.
- 'Operation Warp Speed': Trump pushes for a vaccine, but experts fear rushing is risky.
- Florida will begin reopening on Monday, but hard-hit regions will remain shut.
- Louisiana lawmakers consider using their legislative authority to override the governor's stay-at-home order.
- Trump declared meatpacking plants 'critical infrastructure,' but it is unclear how they would stay open.
- America's growth streak is over: The economy shrank 4.8 percent, and the worst is yet to come.
- A Massachusetts nursing home has had at least 68 deaths.

At 4:45 p.m. Pacific Time there had been 6,026,170 tests processed in the United States.

April 28, 2020

Klamath County reported a new case, bringing the total to 37 with 24 recoveries. COVID-19 claimed seven more lives in Oregon, raising the state's death toll from 92 to 99.

Oregon Health Authority also reported 31 new cases, bringing the state total to 2,385. The new cases reported were in the following counties: Clackamas (1), Coos (1), Harney (1), Klamath (1), Linn (2), Marion (9), Morrow (1), Multnomah (13), Umatilla (1), Wasco (1), Yamhill (1).

Note: A case originally reported as a Washington County case was later determined to be a Multnomah County case. The case count in Multnomah County includes the case to reflect this change. However, the case that moved from Washington County to Multnomah County is not reflected in the total of new cases statewide.

Oregon's 93rd death was a 93-year-old woman in Clackamas County, who tested positive on April 17 and died on April 27 in her residence. She had underlying medical conditions.

Oregon's 94th death was a 73-year-old man in Marion County, who tested positive on March 30 and died on April 26 at Salem hospital. He had underlying medical conditions.

Oregon's 95th death was a 92-year-old man in Marion County, who tested positive on April 20 and died on April 25 at Salem hospital. He had underlying medical conditions.

Oregon's 96th death was a 93-year-old woman in Multnomah County, who tested positive on April 17 and died on April 26 at Legacy Mt. Hood Medical Center. She had underlying medical conditions.

Oregon's 97th death was a 69-year-old woman in Multnomah County, who tested positive on April 17 and died on April 23 at Adventist Medical Center. She had underlying medical conditions.

Oregon's 98th death was a 72-year-old man in Multnomah County, who tested positive on April 24 and died on April 26 at Legacy Mt. Hood Medical Center. He had underlying medical conditions.

Oregon's 99th death was a 91-year-old man in Yamhill County, who tested positive on April 25 and died on April 26 at Providence Newberg Medical Center. He had underlying medical conditions.

At noon Pacific Time, the United States had 1,022,259 cases, with 139,927 recoveries and 57,862 deaths. Worldwide there were 3,110,696 cases, with 944,595 recoveries and 215,231 deaths.

April 27, 2020

The Oregon Health Authority reported the state's largest number of new coronavirus test results in a single day as the illness claimed one additional life and confirmed cases climbed to 2,354. The agency

said a 91-year-old Washington County woman was the latest patient to die, bringing the statewide death toll to 92. The woman had an underlying medical condition.

Additionally, 43 residents — in Multnomah (12), Marion (11), Washington (9), Linn (5), Coos (2), Deschutes (2), Malheur (1) and Yamhill (1) counties — tested positive for the virus in the previous 24 hours.

During that time, over 2,200 new people received coronavirus test results. It is the first time test results in the state have surpassed 2,000 in a single day and is nearly 350 more than the previous high of 1,855, which occurred April 25.

More than 51,000 Oregonians have been tested for the illness since the state confirmed its first case on Feb. 28. Despite expanding capacity, coronavirus testing in Oregon and other states continues to be a limited, creating a dramatic undercount of known coronavirus cases nationwide.

Medical experts also now believe that many infected people don't show symptoms of the illness.

At noon Pacific Time, the United States had 999,390 cases, with 137,271 recoveries and 56,175 deaths. Worldwide there were 3,044,584 cases, with 916,111 recoveries and 210,268 deaths.

April 26, 2020

Headlines in The New York Times included:

- The virus poses a dire threat in overcrowded prisons, leading governments around the world to release inmates.
- Italy's prime minister details how the country will begin to ease Europe's longest lockdown.
- China says Wuhan has no more hospitalized coronavirus patients.
- Prime Minister Boris Johnson has returned to Downing Street and will be at work on Monday.
- Children in Spain go outside for the first time in weeks as the country's lockdown begins to ease.
- Two Dutch mink farms are quarantined after the animals are infected with the virus.
- In North Korea, which has reported no coronavirus cases, rumors fly about the health of Kim Jong-un.

The Oregon Health Authority reported 58 new cases, bringing the total known case count to 2,311. Four new deaths brought the total number of deaths to 91. In all, 48,964 people were tested in Oregon. Of those, 46,653 tested negative for the disease. State officials report 24% of people who have tested positive for the virus in the state have been hospitalized at some point.

249 patients are hospitalized with known or suspected COVID-19. Of those, 71 are in intensive care and 31 are on ventilators. The state has 280 available adult ICU beds and 795 available ventilators.

At 1:30 p.m. Pacific Time in the United States there were 980,784 cases, with 118,735 recoveries and 55,094 deaths. Globally there were 2,982,647 cases, with 875,299 recoveries and 206,342 deaths.

April 25, 2020

Headlines in the New York Times included:

- Some states are moving to reopen. But the path ahead is far from simple.
- Trump amplifies drugs and disinfectants as treatments, even as experts push back.
- The U.S. conducted 1.2 million tests in a week, but experts say that is not enough.
- Americans abroad are asking themselves whether to risk infection by staying put, or risk infection by returning.
- 'There are no viruses here': The leader of Belarus scoffs at lockdowns.

- The Metropolitan Opera put on a live concert gala with a worldwide relay of performances via smartphones.

Oregon officials reported one new death and 76 new cases -- bringing the total number of deaths to 87 and known cases to 2,253. The Oregon Health Authority reported that the latest death was in Lane County, but details about that person weren't immediately available.

At 2 p.m. Pacific Time the United States had 952,995 cases, with 116,015 recoveries and 53,745 deaths. Worldwide there were 2,908,206 cases, with 832,211 recoveries and 202,501 deaths.

April 24, 2020

The Oregon Health Authority reported three new deaths as confirmed cases climbed to 2,177. The agency said two Multnomah County men, ages 80 and 86, and an 89-year-old Linn County man were the latest known patients to succumb to the illness, bringing the statewide death toll to 86. Each had an underlying medical condition.

In addition, 51 residents — in Clackamas (5), Lane (2), Marion (20), Multnomah (14), Umatilla (2), Washington (8) counties — tested positive for the virus in the previous 24 hours.

At 1 p.m. Pacific Time the United States had 894,034 cases, with 90,187 recoveries and 50,919 deaths. Worldwide there were 2,662,118 cases, with 740,620 recoveries and 183,770 deaths.

April 23, 2020

Klamath County reported three new cases, bringing the total count to 36, of which 23 had recovered. The Oregon Health Authority reported five new deaths as confirmed cases climbed to 2,127.

The agency said four people in Multnomah County — a 94-year-old woman and three men ages, 74, 78 and 87 — as well as a 70-year-old Clackamas County man were the latest known patients to succumb to the illness, bringing the statewide death toll to 83. Each had an underlying medical condition.

In addition, state health officials said 68 residents — in Clackamas (8), Coos (1), Deschutes (4), Douglas (1), Hood River (1), Klamath (3), Linn (4), Malheur (1), Marion (9), Multnomah (16), Umatilla (1), Wasco (1), Washington (18) counties — tested positive for the virus in the previous 24 hours.

Nearly 44,000 Oregonians had been tested for the illness since the state confirmed its first case on Feb. 28.

Headlines from the New York Times included:

- As states face a downturn worse than the Great Recession, McConnell suggests they consider bankruptcy.
- The House convenes for votes on a $484 billion aid plan and the formation of a special oversight committee.
- 4.4 million more workers file for unemployment.
- Florida's unemployment system falters, leaving hundreds of thousands unpaid.
- A remdesivir drug trial was terminated because of a lack of patients, contrary to initial reports.
- A lawmaker says she wants to hold hearings on the ouster of a key health official.
- After Trump's rebuke, Georgia's governor signals he will stick with reopening plans.

At noon Pacific Time the United States had 851,586 cases, with 84,117 recoveries and 47,808 deaths. Worldwide there were 2,662,118 cases, with 740,620 recoveries and 183,770 deaths.

April 22, 2020

Oregon Health Authority reported 57 new cases of COVID-19, bringing the state total to 2,059. The new cases were in the following counties: Clackamas (10), Coos (1), Deschutes (2), Jefferson (1), Linn (1), Marion (7), Multnomah (24), Washington (10) and Yamhill (1).

At noon Pacific Time the United States had 830,544 cases, with 83,420 recoveries and 46,149 recoveries. Worldwide there were 2,606,902 cases, with 723,850 recoveries and 180,301 deaths.

April 21, 2020

COVID-19 claimed three more lives in Oregon, raising the state's death toll to 78.

Oregon Health Authority also reported 46 new cases, bringing the state total to 2,002. The new cases were in the following counties: Clackamas (2), Coos (1), Klamath (2) [Klamath announced these on April 20], Linn (1), Marion (10), Multnomah (22), Umatilla (2), Wasco (1), and Washington (7).

After receiving updated residency information, Benton and Yamhill Counties both transferred cases to other Oregon counties yesterday. This led to an overall increase of 46 new cases statewide, and an increase of 48 new cases for the counties.

Oregon's 76th death was a 47-year-old man in Washington County, who tested positive on March 16 and died on April 17 at Providence St. Vincent Medical Center. He had underlying medical conditions.

Oregon's 77th death was a 61-year-old woman in Washington County, who tested positive on March 24 and died on April 18 at Providence St. Vincent Medical Center. She had underlying medical conditions.

Oregon's 78th death was a 65-year-old man in Multnomah County, who tested positive and died on April 20 at Adventist Medical Center. He had underlying medical conditions.

At 9 p.m. Pacific Time, the United States had cases, 765,913, with 71,012 recoveries and 41,124 deaths. Worldwide there were 2,415,875 cases, with 634,929 recoveries and 166,086 deaths.

April 20, 2020

Klamath County reports three new cases. COVID-19 claimed one more life in Oregon, raising the state's death toll to 75. Oregon Health Authority reported 47 new cases, bringing the state total to 1,956. The new COVID-19 cases reported today are in the following counties: Benton (1), Clackamas (10), Douglas (1), Klamath (1) [Klamath County reported two cases that had not yet reached the Oregon database], Lincoln (1), Linn (2), Marion (13), Multnomah (6), Polk (1), Umatilla (1), Washington (9), and Yamhill (1).

A case previously reported in Jackson County was transferred out of state during routine data reconciliation, reducing the cumulative statewide cases by one.

Oregon's 75th death was a 45-year-old man in Marion County, who tested positive on April 14 and died on April 18 at his residence. He had underlying medical conditions.

Headlines in the New York Times included:

- Cases surge in an Ohio prison, making it the top known U.S. hot spot.
- The outbreak is continuing to worsen in some parts of the U.S.
- The outbreak's collateral damage includes people whose other illnesses go untreated.
- Oil plummets as storage capacity runs low, and a quirk in pricing wipes out one benchmark.
- A W.H.O. director warns that manufacturing and distributing a vaccine could be difficult.
- Cuomo says 478 more people died in New York, the lowest single-day toll in two weeks.
- Small demonstrations continue to protest stay-at-home orders, despite health warnings.

At 11 a.m. Pacific Time in the United States there were 771,197 cases, with 71,489 recoveries and 41,356 deaths. There have been 3,893,815 tests given. Worldwide there were 2,451,879 cases with 650,087 recoveries and 168,371 deaths.

April 19, 2020

COVID-19 claimed two more lives in Oregon, raising the state's death toll from 72 to 74. The Oregon Health Authority also reported 66 new cases, bringing the state total to 1,910. The new reported were in the following counties: Clackamas (7), Deschutes (1), Lane (2), Marion (23), Multnomah (21), Umatilla (1), and Washington (12).

A previously reported Klamath County case was determined to be a Washington State case, reducing today's number of new cases by 1 to 66. The total number of cases in Klamath County is 30 to reflect this change.

Oregon's 73rd death was a 64-year-old man in Benton County, who tested positive on March 26 and died on April 18 at Good Samaritan Regional Medical Center. He had underlying medical conditions.

Oregon's 74th death was a 68-year-old man in Washington County, who tested positive on March 23 and died on April 11 at OHSU. He had underlying medical conditions.

At 1:30 p.m. Pacific Time the United States had 759,134 cases, with 69,927 recoveries and 40,265 deaths. Worldwide there were 2,404,077 cases, with 625,280 recoveries and 164,740 deaths.

April 18, 2020

Klamath County announced another case, bringing the total to 30. However, Oregon Health Authority announced two new cases in the county. The second case was tested in Washington state and transferred to Oregon April 17 based information that the individual was a resident of Klamath County. Investigation completed by KCPH determined the Klamath County residence to be a past address. The individual now resides in Washington State.

COVID-19 claimed two more lives in Oregon, raising the state's death toll from 70 to 72. Oregon Health Authority also reported 59 new cases, bringing the state total to 1,844. The new COVID-19 cases reported were in the following counties: Clackamas (1), Curry (1), Deschutes (2), Jackson (1), Klamath (2), Linn (2), Marion (18), Multnomah (26), Polk (1), Umatilla (2), and Washington (4).

A case originally reported as a Yamhill County case was later determined to be a Polk County case. The total number of new cases in Polk County is 1 to reflect this change. However, the case that moved from Yamhill County to Polk County is not reflected in the total of new cases statewide for today.

Oregon's 71st death was a 62-year-old man in Clackamas County, who tested positive on April 2 and died on April 16 at Legacy Mount Hood Medical Center. He had underlying medical conditions.

Oregon's 72nd death was an 84-year-old man in Marion County, who tested positive on April 2 and died on April 17 at Salem Hospital. He had underlying medical conditions.

New York Times headlines included:

- Contamination at C.D.C. labs resulted in delayed coronavirus tests.
- Providing dialysis to Covid-19 patients is the latest unforeseen challenge taxing hospitals.
- Jacksonville beaches reopen, but Florida schools will remained closed.
- President Trump's relationship with China's leader complicates Republican electoral efforts.
- One in three jobs held by women is essential, putting them on the pandemic's front lines.
- Pence resumes travel, giving the Air Force Academy's commencement address.

- Researchers say testing needs to triple for the U.S. to reopen safely, as Cuomo says testing is critical.

At 6:30 p.m. Pacific Time the United States had 675,640 cases, with 1,868 recoveries and 34,522 deaths. A total of 3,394,173 tests had been processed. Worldwide there 2,178,149 cases, with 546,743 recoveries and 145,329 deaths. A total of 18,161,936 tests had been processed.

April 17, 2020

COVID-19 claimed six more lives in Oregon, raising the state's death toll to 70. Oregon Health Authority also reported 49 new cases, bringing the state total to 1,785. The new cases were in the following counties: Clackamas (3), Deschutes (2), Jackson (1), Lane (1), Linn (3), Marion (8), Multnomah (19), Polk (1), Tillamook (1), Umatilla (1), Washington (7), and Yamhill (2) .

Oregon's 65th death was an 88-year-old woman in Clackamas County, who tested positive on April 15 and died April 16 at Adventist Medical Center. She had underlying medical conditions.

Oregon's 66th death was a 95-year-old man in Linn County, who tested positive on April 2 and died April 14 at his residence. He had underlying medical conditions.

Oregon's 67th death was an 86-year-old man in Linn County, who tested positive on April 6 and died April 15 at his residence. He had underlying medical conditions.

Oregon's 68th death was a 65-year-old woman in Marion County, who tested positive on March 26 and died April 6 at Salem Hospital. She had underlying medical conditions.

Oregon's 69th death was a 91-year-old woman in Marion County, who tested positive on April 12 and died April 16 at her residence. She had underlying medical conditions.

Oregon's 70th death was a 76-year-old woman in Multnomah County, who tested positive on April 7 and died April 11 at Adventist Medical Center. She had underlying medical conditions.

New York Times headlines included:

- Trump and Cuomo spar over the federal response to the outbreak.
- Governors in Texas, Michigan, Wisconsin, Idaho and other states are looking to ease restrictions, despite inadequate testing.
- The lack of testing presents a serious challenge to reopening, health experts say.
- Doctors are prescribing hydroxychloroquine, but don't know if it works.
- With social distancing difficult on ships, the crew of the Mercy, a Navy hospital, moves ashore.
- Small Business Administration loans have so far flowed heavily to California and Texas.

At noon Pacific Time the United States had 675,640 cases, with 1,868 recoveries and 34,522 deaths. There had been 3,394,173 tests processed. Worldwide there were 2,178,149 cases, with 546,743 recoveries and 145,329 deaths. A total of 18,161,936 tests had been processed.

April 16, 2020

Klamath County reported three new cases and 19 recoveries. COVID-19 claimed six more lives in Oregon, raising the state's death toll to 64. Oregon Health Authority also reported 73 new cases, bringing the state total to 1,736. The new cases were in the following counties: Benton (2), Clackamas (8), Deschutes (4), Douglas (2), Klamath (3), Lane (1), Linn (1), Malheur (1), Marion (15), Multnomah (18), Umatilla (5), Washington (12), and Yamhill (1).

Oregon's 59th death was an 84-year-old man in Multnomah County, who tested positive on March 24 and died on April 13 at his residence. He had underlying medical conditions.

Oregon's 60th death was a 56-year-old man in Multnomah County, who tested positive on March 28 and died on April 14 at Legacy Mount Hood Medical Center. He had underlying medical conditions.

Oregon's 61st death was a 78-year-old man in Multnomah County, who tested positive on March 30 and died on April 14 at his residence. He had underlying medical conditions.

Oregon's 62nd death was a 69-year-old man in Multnomah County, who tested positive on April 13 and died on April 15 at Kaiser Sunnyside Medical Center. He had underlying medical conditions.

Oregon's 63rd death was a 74-year-old woman in Benton County, who tested positive on April 2 and died on April 14 at Good Samaritan Regional Medical Center. She had underlying medical conditions.

Oregon's 64th death was a 92-year-old man in Marion County, who tested positive on April 14 and died on April 11 at his residence. He had underlying medical conditions.

At 5 p.m. Pacific Time the United States had 675,640 cases, with 1,868 recoveries and 34,522 deaths. A total of 3,394,173 tests have been processed. Worldwide there were 2,178,149 cases, with 546,743 recoveries and 145,329 deaths. A total of 18,161,936 tests have been processed.

April 15, 2020

The World Health Organization Director-General Dr. Tedros Adhanom Ghebreyesus said at a media briefing:

> "COVID-19 does not discriminate between rich nations and poor, large nations and small. It does not discriminate between nationalities, ethnicities or ideologies.

> "Neither do we. This is a time for all of us to be united in our common struggle against a common threat – a dangerous enemy.

> "When we are divided, the virus exploits the cracks between us.

> "We are committed to serving the world's people, and to accountability for the resources with which we are entrusted.

> "In due course, WHO's performance in tackling this pandemic will be reviewed by WHO's Member States and the independent bodies that are in place to ensure transparency and accountability. This is part of the usual process put in place by our Member States.

> "No doubt, areas for improvement will be identified and there will be lessons for all of us to learn.

> "But for now, our focus – my focus – is on stopping this virus and saving lives."

COVID-19 claimed three more lives in Oregon, raising the state's death toll to 58. Oregon Health Authority also reported 33 new cases, bringing the state total to 1,663. The new cases reported were in the following counties: Benton (1), Clackamas (7), Columbia (3), Douglas (1), Lane (2), Linn (1), Marin (5), Multnomah (10), Umatilla (1), and Washington (2).

Three cases previously reported in Washington County were reclassified during routine data reconciliation. Two of the cases were removed and one was transferred to Washington state after residency was confirmed. These modifications reduce the cumulative statewide total by three.

Oregon's 56th death was an 82-year-old man in Marion County, who tested positive on April 3 and died on April 10 at Santiam Hospital. He had underlying medical conditions.

Oregon's 57th death was an 84-year-old woman in Multnomah County, who tested positive on March 30 and died on April 12 at Adventist Medical Center. She had underlying medical conditions.

Oregon's 58th death was a 92-year-old woman in Multnomah County, who tested positive on April 9 and died on April 12 at her residence. She had underlying medical conditions.

The United States had 644,089 cases, with 48,701 recoveries and 28,529 deaths. Worldwide there were 2,082,372 cases, with 510,046 recoveries and 134,560 deaths.

April 14, 2020
Klamath County reported a new case and 15 recoveries, bringing the total to 26.

At 10:30 a.m. Pacific Time in the United States there were 602,977 cases, with 32,469 recoveries and 25,132 deaths. Worldwide there were 1,981,510 cases, with 459,169 recoveries and 125,011 deaths.

April 13, 2020
COVID-19 claimed one more life in Oregon, raising the state's death toll to 53. Oregon Health Authority also reported 57 new cases, bringing the state total to 1,584. The new cases reported were in the following counties: Clackamas (7), Columbia (2), Douglas (2), Jackson (1), Josephine (1), Lane (4), Marion (4), Multnomah (24), and Washington (12).

Oregon's 53rd death was a 66-year-old Washington County resident, who tested positive on March 30 and died on April 12 at Legacy Good Samaritan Medical Center. She had underlying medical conditions.

At 12:30 p.m. Pacific Time the United States had 579,486 cases, with 31,336 recoveries and 23,252 deaths. Worldwide there were 1,915,952 cases, with 444,694 recoveries and 118,829 deaths.

Top stories in the New York Times were the governors of California, Oregon and Washington will work together on a joint approach to reopen their economies. The move came after a similar announcement by the governors of six East Coast states, including New York and Pennsylvania.

- Business leaders and the C.D.C. warn the economy will recover slowly, even as pressure grows to reopen it.
- A major meat plant is closing indefinitely and a chief executive warns about supply chain.
- A stalemate in Congress over interim emergency aid seems likely to continue.
- Trump has no intention to fire Fauci, White House says.
- Tornadoes that have killed at least 19 people add to the woes of the South as it grapples with the virus.
- Facing testing backlogs, sick patients wait all night in their cars at drive-through sites. Then they wait more.

April 12, 2020
Headlines in the New York Times were:

- Oil-producing nations agree to cut production sharply.
- Questions loom about reopening the economy: 'You can't just pick a date and flip a switch.'
- Easter was celebrated mostly at a distance. But some pastors resisted.
- Walt Disney World will furlough 43,000 workers.
- The outbreak in New York may be leveling off, but at a high level.
- Should the U.S. rescue Boeing?
- Behind the president's delayed response to the pandemic.

COVID-19 claimed one more life in Oregon, raising the state's death toll from 51 to 52. Oregon Health Authority also reported 80 new cases, bringing the state total to 1527.
