Vaccinations in Oregon

OHA is providing weekday updates on administered doses of COVID-19 vaccines in Oregon on its vaccination data [dashboard](#).

Today OHA recorded 5,717 doses of vaccine, raising the state's total number of first vaccine doses to 44,415. This figure is based on preliminary reports of 3,385 doses administered yesterday, as well as 2,332 administered on prior days that had not been recorded. All vaccinations occurred at Oregon hospitals, long-term care facilities, emergency medical service (EMS) agencies, urgent care facilities and Local Public Health Authorities (LPHAs).

To date, 190,500 doses of vaccine have been delivered to sites across Oregon.

The dashboard provides weekday updates on the number of people vaccinated, both by state and by county, along with key demographic information showing the race, ethnicity, sex and age of everyone who has been vaccinated. OHA will begin publishing this data during weekends starting Saturday, Jan 2.

COVID-19 hospitalizations

The number of hospitalized patients with COVID-19 across Oregon is 466, 22 fewer than yesterday. There are 109 COVID-19 patients in intensive care unit (ICU) beds, three more than yesterday.

The total number of patients in hospital beds may fluctuate between report times. The numbers do not reflect admissions per day, nor the length of hospital stay. Staffing limitations are not captured in this data and may further limit bed capacity.
